Geneva, October 9. N. S.

A Great Difference has lately happened between the *French* King and the Duke of *Savoy*, which it is believed will come to an open Rupture: The Duke of *Vendoſme* has on a ſudden cauſed the Forces of *Savoy*, who had ſerved during this Campaign in the *French* and *Spaniſh* Army under his Command, and were marching home, to be ſtopt and diſarmed, and detains them, demanding of the Duke ſome Cautionary Towns, as *Verceil*, *Verue*, *Suſa*, &c. The Duke of *Savoy* has thereupon given Orders for the Nobility and Militia of that Dutchy to take Arms, and *Chamberry* is appointed to be the Place of their Rendezvous, whither the Marquis of *Saleſ* is already come Poſt from *Turin*, in order to command them. Directions are alſo given for putting the fortified Places in *Savoy* and *Piedmont* into a Poſture of Defence. The Duke, by way of Repriſal, has alſo cauſed a great number of *French* Officers, who were then at *Turin*, to be ſeized, and 10000 Fire-Arms to be ſecured, which came from *France*, and were carrying thro' his Country to the *Milaneze*. This News is confirmed by Advices from ſeveral Parts, particularly by Letters from *Lyons* of the 4th and the 7th Inſtant. They write from *Languedoc*, That a Body of the *Camiſars* has got into the Country of *Rovergne*, where they treat the Inhabitants in the ſame manner as they in the *Cevennes* have been us'd by the *French* King's Officers and Forces, putting all to Fire and Sword; ſo that the War in thoſe Parts is carried on with greater Fury than ever. They write from *Toulouſe* of the 26th paſt, That another Body of 4 or 500 *Camiſars* had made an Incurſion to the very Gates of that City, tho' without doing any Miſchief, giving out they had no deſign againſt any one, ſave thoſe who levy the *French* King's Taxes; and that Orders were given for the Militia to be raiſed, to make head againſt them. Letters from *Marſeilles* of the 3d of this Month ſay, a great Conſpiracy has been lately diſcovered at *Naples*, which was to have broke out upon the Arrival of the Confederate Fleet on the Coaſts of that Kingdom.

Vienna, October 6. Major-General *Ravenſtau*, who had the Command of the Imperial Forces in and about *Paſſau* is ordered to *Italy*, to command the *Daniſh* Forces there, under Lieutenant-General *Tramp*; and two Regiments of Horſe and Dragoons are marching from *Paſſau* towards *Hungary*, to be employed againſt the Rebels in that Country. We have an Account from thence, That a Body of 3000 Rebels had in 11 days Siege reduced the Town of *Kowar*, an important Paſs into *Tranſilvania*, to that Extremity, that the Garriſon for want of Water had been obliged to capitulate, and was to have ſurrendered on the 15th; but General *Rabutin*, who, as we mentioned in our laſt, was marching to their Relief, arrived there very ſeaſonably, and on the 13th attacked and totally routed the Rebels, killing 300 of them on the place; the reſt fled to *Nebania*, a Town they are poſſeſſed of within two Leagues of *Kowar*. General *Rabutin* did not think it convenient to purſue them any further, and leave the Province of *Tranſilvania*, whereof he is Governor, quite deſtitute of Troops: So that after having reinforced the Garriſon of *Kowar*, and provided them with all things neceſſary for their Defence and Subſiſtence, he returned with the Body of Troops under his Command to his Reſidence at *Hermanſtad*. According to our Advices from Prince *Lewis*'s Army of the firſt Inſtant, he was ſtill encamped near *Augſbourg*, and the Elector of *Bavaria* and the Marſhal *de Villars*, with the Army under their Command, lay at *Gertſhoffen*, almoſt in ſight of that Place. The Count *de Mercy*, with a ſtrong Party of Imperialiſts, was ravaging the Country of *Bavaria*, and the Huſſars were to make an Excurſion to *Schleisheim*, one of the Elector's Country Houſes. Our Advices from *Italy* ſay, That the Count *de Solari* had joined the Imperial Army there with 5000 Foot; and they write from *Inſpruch*, That General *Heiſter* was returned thither with the Regiment of Dragoons of *Bareith*, and 200 Huſſars, in his way to *Kuffſteyn*, having Orders to uſe his utmoſt Endeavours for the reducing of that Place, which it is hoped may be effected in a little time with this Aſſiſtance, the Country People of *Tirol* having been ſometime beſieging it already.

Augsbourg, October 9. The Enemy decamped the 6th Inſtant from *Gertſhoffen*, the Elector of *Bavaria* with his Troops marching towards *Donawerth*, and the *French* towards *Ulm*. The Body of Imperial Forces commanded by the Count *de Stirum* is in motion, in order as it is ſaid to join Prince *Lewis*'s Army, which continues encamped in the Neighbourhood of this Place. Directions are given for demoliſhing the Fortifications of *Friedberg*, which Place the Imperialiſts lately took from the *Bavarians*. The Town of *Chamb* in the *Upper Palatinate*, belonging to the Elector of *Bavaria*, ſurrendered the 4th Inſtant to General *Herbeville*, the Gariſon, which conſiſted of 250 Men, remaining Priſoners of War. The Imperial Forces which were before that Place are marched towards *Amberg*.

Zurich, October 10. A General Aſſembly of the Deputies of the Three Leagues of the *Griſons* was held at *Coire* about 3 weeks ago, wherein the *French* Envoy endeavoured to prevail with them to own the Duke of *Anjou* for King of *Spain*; but a great Majority oppoſing it, he produced a Letter from his Maſter to the Three Leagues, with the Title of *Good Friends, Allies and Confederates*: It was expected the Leagues would return the Compliment with the ſame Titles, but, at the mention of it, the greateſt part of the Deputies deſired to know how they were allied, alledging, that all the old Alliances were expired, and they knew of no new ones. This ill Succeſs diſcouraged him not from a ſecond Attempt, and after that a third, when, taking the advantage of a thin Meeting, a Letter was voted in that Style, and ſo ſubſcribed and ſent away, without having brought it before the Commons to be ratified, which ſhould have been done by their Conſtitution before the Diſpatch of it. The Commons being informed of this Irregularity, are much offended at it, and have not only put in Priſon one of their Chief Governors, as he was returning from the Aſſembly, but alſo threaten to puniſh ſeverely all the Authors of this Letter.

Francfort, October 14. The *French* Forces under the Marſhal *de Tallard* have been within two Leagues of *Landau*, and have ravaged and plundered the Country thereabouts, from whence it is conjectured they do not intend to make any long ſtay there, and that they have no deſign of beſieging *Landau*. The 10th Inſtant a Body of their Troops attacked the Imperial Forces that guarded the Bridge of Boats at *Dachland*, but they were repulſed, and the Imperialiſts broke down their Bridge, and ſent their Pontoons to *Philipsbourg*, except two or three which had been ſunk by the Enemy's Cannon. It is ſaid that the Marſhal *de Tallard* is to ſend a Detachment of 14000 Men from the *Upper Rhine* through the Valley of *Kintzig* to join the Marſhal *de Villars*.
